TOP

HDMI for Fast Transmission

HDMI connectivity provides faster data transmission to digital devices

2x HDMI

To offer more flexible connectivity between devices
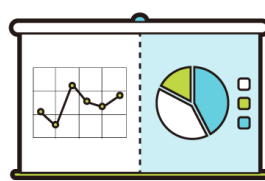

3600 Lumens, 20000:1 Contrast

High brightness & contrast images even in well-lit meeting rooms

Crystal-Clear Images

All glass lenses for image quality in brilliant clarity

Detailed Infographics

Exclusive Infographic Mode showcases the text and graphics in detail

Retractable Adjustment Foot

Far superior to projectors with only one adjustment foot, the triple adjustment feet, including a retractable foot, enhance flexibility in a wide variety of meeting rooms.

Vertical Keystone for Perfect Alignment

Countering the trapezoid effect when the projector must be placed off-center, vertical keystone function adjusts the image for a professionally squared image.

Wall Color Correction

Corrects the projected picture's color when the projection surface is not white. It adjusts the projected picture's colors to prevent possible color difference between the source and projected pictures.

All Glass Optimized Lens with Perfect Clarity

Meeting Room Table Top Placement

**Ceiling Mounted**

Use Your Wall as Screen

No need for a special screen to use this projector. Simply use the wall to project on. No white wall? Not a problem! Projecting onto a coloured surface such as a painted wall is easy with BenQ's Wall Colour Mode. (Light) Yellow, Pink, (Light) Green, Blue and Black (board) walls are also suitable to project on. You only need a flat surface and the projector does the rest.

Exclusive Picture Modes for Presenting

Presentation Mode

Designed for presentations with vivid colors. In this mode, the brightness is emphasized to match PC and notebook coloring.
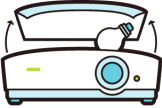

Infographic Mode

Great for showcasing the text and graphics of infographic in detail thanks to the high brightness and better color gradation.

TOP

Save Energy, Save Manpower

Top Lamp Door for Easy-Access Lamp Changes

Conveniently placed on top, allowing fast lamp maintenance and replacement when the projector is ceiling mounted in meeting rooms.

Kensington Lock

Designed to secure tabletop projectors, the Kensington lock interface provides "physical" security.
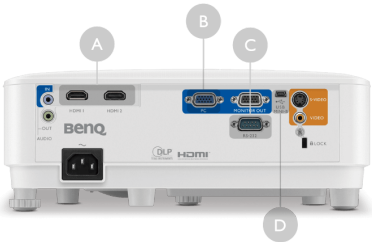

Anti-Dust Accumulation Sensor

Rejects dust accumulation, enhancing device durability and hence reducing maintenance costs.

SmartEco Mode

Conserving up to 70% of lamp power for a lamp life of up to 15,000 hrs.

Connectivity

A. HDMI*2
B. PC-1
C. RS-232
D. USB Mini-B

Accessory

- Remote Control
- Power Cord
- User Manual CD
- Quick Start Guide
- Warranty Card
- VGA Cable
