VIDEO MOTORE PROJECTION SCREENS

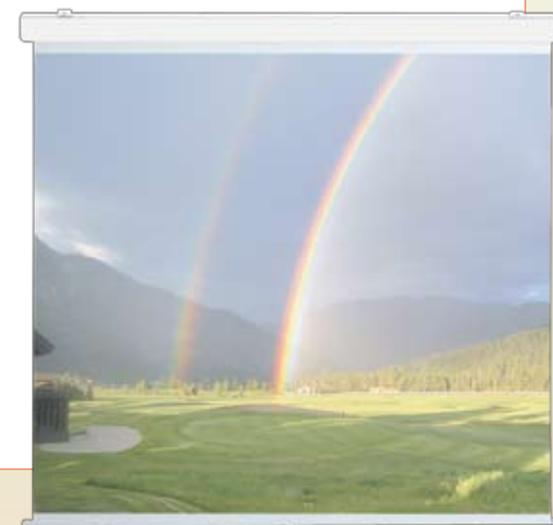

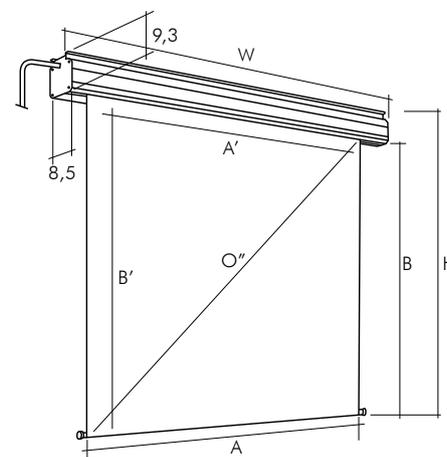

with electrical command, varnished aluminium case

PROJECTION

Professional screens with electrical control, realised with box in aluminium varnished with white epoxy powders which can be easily mounted to the wall or to the ceiling, through a pair of suspension brackets freely positioned on the length of the box. Upon request, the screen can be provided with radio remote control and a pair of special brackets to space the screen up to 22 cm from the wall. The screens are made with (standard) fire-proof, washable, professional white fabric, and upon request, with other fabrics for front and rear projections in order to satisfy all particular projection needs. Functioning is quick and silent thanks to the construction quality and materials used. Particularly suitable for home theatre and video-projections in medium-size board rooms, university rooms, training centres, management offices, hotels and holiday camps.

Technical Features

- **Realised** with the following projection fabrics: SOFT WHITE, SOFT MATT WHITE, SOFT WHITE TRANSOUND, RETRO (see technical data sheet at pages 1-2-3)
- **In the standard version, the screen is lowered from the front side of the box**, in case of wall installation it lowers at aprox. 81,5-97,5 mm wall distance; on demand, the screen can be supplied with rear lowering system, in this case the wall distance will be aprox. 22,5-16,5 mm. On screen size 350x300 and 400x300 the fabric lowers very close to the wall.
- **Extruded aluminium case, epoxy powder coated, in white** RAL 9010 colour, section 85x93mm, with rounded corners; provided with reinforcement on the upper side to hold wall **fixing clamps**; on the lower side a longitudinal slot with **rounded edges** allows the descend of the projection.
- **Internal silver anodized aluminium tube for fabric wind up** Ø 60 mm, which includes a reliable electric motor mounted on special rubber silent blocks.
- **Powerful electric motor, single phase**, IMQ trade-mark, CE, **5-year guarantee** from purchasing date, power supply 200V-50Hz, absorption 0,5A, protection IP 44, 17 RPM., on the standard version the motor is mounted on the left hand side, on demand it can be mounted on the right hand side.
- **Screen up and down electric inverter, standard supplied**
- **Screen up and down limit switches factory adjusted**, possibility of different settings if necessary. The screen can also be stopped at intermediate height by pressing the electric inverter switch
- **Suspension brackets are standard supplied** and can be mounted anywhere along the whole housing length. **Brackets are steel made, epoxy powder coated in white** RAL 9010 colour, they are suitable both for wall or ceiling installation thanks specific expansion anchors
- **Robust individual packing** in double cardboard type volcano
- **Product CE certified, 12 month warranty** to the conditions indicated on the manual
- **Accessories on demand**: radio remote control, spacing brackets
- **Case overall dimensions**: screen base size + 12 cm; case overall dimensions including mounting brackets: screen base size + 20 cm
