HideTech Series Recessed Screen

The HideTech Series Recessed Screen is highly popular for its discreet design, making it a top choice for home installations. It addresses common issues with traditional hidden screens, such as excessive noise, difficult installation, and unattractive appearance. Featuring unique noise-reduction technology and a rubber soft-connect structure, it minimizes noise caused by ceiling vibrations during screen operation. The ceiling-mounted design allows the screen to be easily concealed, ensuring quick installation with minimal disruption. The durable casing and decorative panel combine functionality and aesthetics, seamlessly blending into the environment.

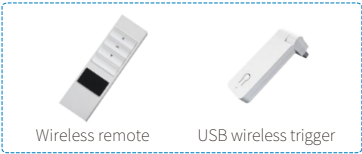

This model also comes with Bluetooth speakers, featuring a two-way frequency design that enhances bass response and delivers a more immersive audio experience, offering clear and transparent sound alongside exceptional visuals.

- 80~133 inches
- Simple installation with just two screws for ceiling mounting
- Multiple control options: Wireless/IR remote, RS485, dry contact, etc., enabling network and remote control
- Sleek, ceiling-concealed design that complements any space
- Audio version: Two-way frequency speakers with 15° tilt angle for optimal sound positioning
- 1.5-inch silk dome tweeter and 3-inch neodymium bass unit
