Features	All metal aluminum alloy frame structure, ultra narrow lower frame, and acoustic design for front speaker output	
	Anti-Glare toughened glass, Mohs 7H hardness explosion-proof glass screen protection	
	Adopting A-grade 120Hz high refresh rate esports panel, supporting perfect restoration and display of 3A game high-speed motion graphics in high frame rate mode	
	Support light sensing adjustment of brightness	
	4K UHD display, support for all-channel 4K UI display	
	Front 2 USB type-A+1 USB TYPE-C interface, supporting dual system multi-channel switching	
	Support wireless screen-sharing	
	±1mm IR (Infrared Ray) touch technology	
	Supports dual 5G WiFi and AP hotspot functionality	
	Support OPS and signal source channels to enable screen down movement function, which can be quickly switched through a 3-finger gesture of sliding down/up	
	The Android system has multi-user account management and can be accessed with different permissions to ensure the security of document information for each user	
	The Android Whiteboard App supports up to 4 split screen independent writing and more diverse material editing capabilities
